SKILLS

Core Java, Java8, Hibernate, Spring Boot, Microservices, Rest API, Spring MVC, Spring Data JPA, SQL, Git

WORK EXPERIENCE

System Engineer, Tata Consultancy services, Hiranandani Estate Thane, Mumbai **Jan 2021- Oct 2023**

EXPERIENCE SUMMARY

I have 3 years of experience working as a Java Developer for **Bank of Maharashtra** and **Indian Bank**.

I Provide full life cycle support to client from initial interaction to analysis, design, debug, coding, implementation and integration. Provide ongoing application support in Dev and Prod mode.

Role and Contributions

Project 1: Bank Of Maharashtra (*Jan 2021 – Oct 2023*) This application is based on **Core Java**, **Spring boot** and **Spring MVC** for the database we use JPA Repository. I worked on **Customer creation**, **KYC update**, **File Uploading**, **User Authentication** using **Spring-Security** and Implementing a feature to highlight text fields that have been updated by customers at the supervisor's end for verification purposes, utilizing appropriate data structures and JSON objects for efficient processing.

Tools and Technology: **xml configuration**, **Spring framework**, **SQL**, **eclipse IDE**.

PROJECTS

Project: Ecommerce Web Application

This application is developed on java technology. This is based on **Spring Boot** and **Spring MVC**, **Spring JPA** and **MySQL**. This has three basic services- **Product**, **Category** and **User** and for UI **React** has been used.
